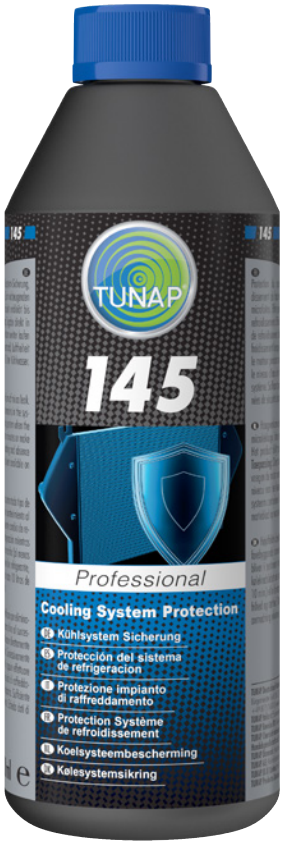
Product Information

Professional
145 Cooling System Protection

Highly effective cooling system protection, works against all kinds of micro-leaks. For preventative use after every repair to the cooling system. Product remains in the system until the next time the fluid is replaced.



Properties

- ✔ Protects against leaks in the cooling circuit
- ✔ Permanently seals hairline cracks and micro leaks
- ✔ Guaranteed to keep heating valves and water pumps working
- ✔ Prevents seal transpiration and loss of cooling water
- ✔ Has no effect on rubber, plastics, light alloys or non-ferrous metals
- ✔ Suitable for all glycol- and glycerine-based anti-freeze

Application area

- ✔ Non-tight hose connections
- ✔ Transpiration-soaked head gaskets
- ✔ Hairline cracks in the radiator, cylinder head or engine block
- ✔ Water loss, wet cylinder liners to lubricant oil

Instructions

Add directly to the coolant circuit with a warm engine. After adding leave the engine running (at least 10 minutes) or carry out a test drive. Check coolant level, absence of air and leak tightness of the system.

Dosing

Sufficient for up to 10 litres of coolant.

Notice

- ✔ In the case of a contaminated cooling system, radiator cleaning with the cooling system cleaner MP 143 and refilling with anti-freeze or coolant is required.
