933S RENAULT Valve Clean starter set

Special cleaning kit for valves and surrounding ducts. Fast, effective and material-conserving cleaning due to the special valve cleaning granulate MF 933. With the neutralising solution MF 936, residual particles of the granulate can be broken down and do not reach the combustion chamber.

Properties

- ✔ Effective cleaning thanks to granulate that is tailored to the contamination
- ✔ Specific grain size — ensures consistent product quality
- ✔ Specific geometry — no sharp-edged or compressing properties, therefore no abrasion, wear or damage to the respective surface structure
- ✔ Simple and reliable application
- ✔ Residual particles of the granulate can be broken down with 936 neutralisation solution
- ✔ Non-hazardous product

Application area

- ✔ For cleaning inlet valves and inlet ducts
- ✔ For cleaning outlet valves and outlet ducts

Instructions

Use with the RENAULT Valve Clean starter set, item no.: 1105916

Dosing

Two to four cans of 933 valve cleaning granulate are required for one vehicle (four cylinders). One can of 936 neutralisation solution is sufficient for up to three vehicles

Notice

- ✔ After cleaning, we recommend 979 Injector Direct Cleaner (petrol) and regular use of 974 Injector Direct Protection (petrol).

Product Description	Contents	Article Number	Packaging Unit
