

TUNAP

398 Anti-Weasel Spray

Protects effectively against rodent bites in the engine area. The animals are kept away from the vehicle by the specific smell of the product and its sticky consistency. The effect lasts for approx. 2 months.

Properties

- ✓ Contains specific odorous substances to keep rodents away
- ✓ Protects and preserves rubber parts near the engine, such as axle boots, steering boots, brake hoses, cooling water hoses and electric cables
- ✓ Resistant to splashing water, salt water and high pressure

Application area

- ✓ To protect against marten bites in the engine area

Instructions

Use only when the engine is cold and the electrical system is switched off. Spray evenly over the entire engine area. Allow it to dry off for 10 minutes. Repeat application approx. every 2 months and after an engine wash.
