

TUNAP

1819 Pressure Pump Sprayer for 115

High-quality pressure pump sprayer for ensuring universal cleaner is sprayed evenly. Perfect for maintenance, repair and assembly work in the skilled trade sector.

Properties

- ✓ High-pressure pump sprayer for effortless spraying
- ✓ Pump to build up pressure in the fluid reservoir
- ✓ Simply press the spray button with your thumb for an even, constant stream
- ✓ Max. filling volume: 0.9 l
- ✓ Operating pressure: 3 bar/safety valve

Application area

- ✓ Part cleaning

Instructions

Pump to generate pressure in the liquid container. Thumb pressure on the spray button is enough to ensure an even, consistent application, the fineness of which can be controlled by turning the nozzle nut.

Notice

- ✓ Use only with universal cleaner. Do not finely atomise cleaner, use only with spray jet
