Areas of application:

Alcohol disinfectant for all types of smooth surfaces. The product is material-compatible with metals and plastics (excluding acrylic glass and alcohol-sensitive paints).

Spray the surfaces with the concentrated bottle disinfectant. Make sure the surface is completely wetted to ensure optimal disinfectant success.

Output: maximum 50 ml / m²

After the reaction time is complete, wipe with a disposable cloth.

Product information: 100 g active ingredient solution contains 20.95 g ethanol, 10 g n-propanol, 0.24 didecyldimethyl ammonium chloride, 0.24 C12-14-alkyl[(ethylphenyl)methyl]dimethyl ammonium chloride, 0.24 benzyl-c12-16-alkyldimethyl ammonium chloride.

Application and dosage:

	Concentration	Reaction time
Bactericides (EN 13727) high load (EN13697)	Ready for use	5 min.
Bactericide/yeasticidal (pursuant to DGHM/VAH) high load (EN 13624)	Ready for use	5 min.
	Ready for use	5 min.
Restricted virucide (pursuant to DVV/RKI guidelines)	Ready for use	2 min.

Physiochemical details:

Density	0.95 g/ml 20 °C
Colour	Colourless
Flash point	33°C
Form	Liquid
pH	7.7

Special notes:

Use disinfectants with care.

Always read the label and product information before use.

Pay attention to fire and explosion protection when using alcohol surface disinfectants. Do not use near ignition sources. The use of protective gloves is recommended. Shelf-life of 2 years.
