

microflex®

932 Flushing Concentrate

Neutral, ash and metal-free solution for flushing after particle filter cleaning. Evaporates without leaving residue. Guarantees a cleaner particle filter that can be regenerated again.

Properties

- ✓ Loosens ash deposits in particle filters
- ✓ Evaporates without leaving residue

Application area

- ✓ In the case of performance losses or faults due to a particulate filter overloaded with soot or ash
- ✓ For removing deposits containing carbon from oxidation catalytic converters

Instructions

Begin by cleaning the particulate filter with the microflex® 931 particulate filter cleaner. Refer to Service Information SI 931. The TUNAP pressure cup spray gun is then filled with microflex® 932 flushing concentrate. The particulate filter is rinsed using the connected TUNAP probe. Wear a face guard/safety glasses. Safety data sheet available on request.

Product Description	Contents	Packaging Unit	Article Number
Flushing Concentrate	500 ml	12 PCS	MF93200500F7
