933S Valve cleaning kit

Special cleaning kit for valves and surrounding ducts. Fast, effective and material-conserving cleaning due to the special valve cleaning granulate MF 933. With neutralising solution MF 936, residual particles of the granulate can be broken down and do not reach the combustion chamber.

Properties
- Effective cleaning thanks to the granulate, which is suited to the contamination
- Specific grain size — ensures consistent product quality
- Specific geometry — no sharp-edged or compressing properties, therefore no abrasion, wear or damage to the respective surface structure
- Simple and reliable application
- With 936 neutralisation solution, residual particles of the granulate can be broken down
- No hazardous materials

Application area
- For cleaning inlet valves and inlet ducts
- For cleaning outlet valves and outlet ducts

Instructions
Use with cleaning tool 13400V1 Valve Clean System. Refer to SI 933 before use!

Dosage
For one vehicle (four cylinders), approx. two cans of 933 valve cleaning granulate are required
One can of 936 neutralisation solution is sufficient for up to three vehicles

Notice
- After cleaning, we recommend 979 Injector Direct Cleaner (petrol) or 989 Injector Direct Cleaner (diesel), as well as regular use of 974 Injector Direct Protection (petrol) or 984 Injector Direct Protection (diesel)

Product Description | Contents | Packaging Unit | Article Number
--- | --- | --- | ---
Valve cleaning kit | 2.8 l | 1 PCS | MF933055

Shipment | Amount | Article Number
--- | --- | ---
Valve Clean Granulate | 12 | MF93301000AB
Neutralising Solution | 2 | MF93600200AB
Injector Direct Protection | 6 | MF97400200A3
Injector Direct Protection | 6 | MF98400200A3
