**979 Injector Direct Cleaner**

Reliably cleans injectors with ROA² technology in the event of fuel-related deposits. When used at every inspection, the Injector Direct Cleaner provides enhanced performance and significantly reduced exhaust emissions. Adding the product to the fuel tank is proven to keep the fuel in line with the DIN EN 228 fuel standard.

**ROA² technology**
- Even more powerful cleaning formula based on ROA² technology
- Deposits on injectors are broken down and cleaned away
- Re-contamination is prevented
- Excellent dissolution properties in all petrol mixtures
- ROA² level 2: Ideal for heavy contamination

**Properties**
- Returns fuel consumption and emission values in the presence of fuel-related soiling to the levels expected of new vehicles
- Improves combustion, thereby reducing particulate emissions (Euro 6)
- The fuel is activated and works in the injection and combustion chamber area
- Suitable for all (ethanol) petrol mixtures

**Application area**
- For all intake-manifold and direct injection petrol engines
- For safeguarding overall fuel quality

**Instructions**
Add to the fuel tank. Use the filler neck to do so. Sufficient for up to 80 litres of fuel. Lower filling volumes improve cleaning performance (min. 10 litres of fuel). Suitable for all petrol (ethanol) mixtures (EURO 6).

**Dosing**
Sufficient for up to 80 litres of fuel.
