200 High-performance Lubricant

Multifunctional, free-flowing high-performance lubricant with adhesive quality. The pressure-resistant lubricating film protects against wear and corrosion. The lubricating film does not spin off, even on turning or rotating parts.

Properties

- ✓ Lubrication reliability thanks to anti-wear additives
- ✓ Good creep effect for penetrating into difficult to reach areas
- ✓ Good adhesive effect ensures resistance to external influences
- ✓ Resistant to high pressures and temperatures
- ✓ Resistant to spray and sea water
- ✓ Good cushioning properties
- ✓ Silicone, resin and acid-free

Application area

- ✓ Moving metallic parts like joints, hinges, sliding parts, strikers, locking cylinders, locks, slide rails
- ✓ Lubrication of door hinges and rebound straps
- ✓ For repair of spring struts, stabilisers, bell cranks, swivel hub locking devices, gear, clutch and brake linkages
- ✓ Corrosion protection for brake and fuel lines

Instructions

Spray parts to be treated evenly.
