

Professional 112 Brake Spray

Excellent adhesive metal-free brake spray for the complete brake service. Lubricates and protects from corrosion.

Properties

- ✓ Fine, layered application possible, through optimum spray pattern
- ✓ Effective corrosion protection
- ✓ Very good pressure and temperature resistance
- ✓ No dripping point
- ✓ Resistant against external influences such as splash and salt water
- ✓ Very good damping properties
- ✓ Metal-free

Application area

- ✓ In the case of squeaking brakes apply to the rear of the brake pad
- ✓ For the connection point light alloy wheel rim to wheel hub
- ✓ For repairs on discs and drum brakes

Instructions

Shake can well before use. Spray onto the parts to be treated from a distance of 20 cm, allow propellant gas to evaporate. After use, turn the can on its head and spray until the riser tube is empty.

Notice

- ✓ Do not apply on brake lining friction surfaces and brake discs
- ✓ Do not use to lubricate brake pistons or seals
