

## Professional 120 Tyre Fitting Gel

Innovative tyre fitting gel for gentle installation of tyres. Special sliding substances significantly reduce friction between the tyre and rim. No visible residue after installation.

### Properties

- ✓ Effective sliding properties, even with high-pressure loads
- ✓ Protects against damage during installation
- ✓ No visible residue after fitting
- ✓ Facilitates the assembly of run-flat tyres, low-profile tyres or UHP tyres

### Application area

- ✓ For the assembly and disassembly of car tyres, truck tyres, run-flat tyres, motorcycle tyres and bicycle tyres.

### Instructions

Shake can well before use. Spray the tyre bead and rim generously. Fit the tyre onto the rim promptly.
