129 Multi Soot Remover

Removes contamination containing carbon on vehicle components such as diesel injectors, EGR valves, turbochargers, intake manifolds.

Properties

- ✓ Quickly and reliably breaks down and removes carbonisation and soot residues
- ✓ Around the diesel injectors
- ✓ In the intake and exhaust system

Application area

- ✓ For trouble-free dismantling of fixed (coked) injectors
- ✓ For cleaning EGR valves (dismantled)
- ✓ For cleaning turbochargers and intake manifolds (dismantled)
- ✓ For cleaning contamination containing carbon

Instructions

Spray and/or lie the parts to be cleaned with/in Multi soot remover or flood the component. Allow to soak in for up to 30 minutes. Rinse off the dissolved contamination with a high-pressure cleaner and clean water. Only clean turbochargers, EGR valves and intake manifolds when they have been dismantled. Ventilate the cleaned components thoroughly or dry before assembly.

Notice

- ✓ Increase penetration time for severe contamination (e.g. up to 8 hours for diesel injectors)
