Professional
144 Cooling System Agent

Non-hazardous, synthetic cooling system active substance. Suitable for use in cooling lubricants with or without silicate. Converts rust and lime into water-soluble substances and supplements consumed additives in the coolant. Integrated UV pigment particles allow quick determination of leaking areas in the cooling system.

Properties
✓ Ensures the cooling system functions correctly
✓ Supplements consumed coolant additives
✓ Cleans the entire system continuously while driving
✓ Converts corrosion and lime into water-soluble substances
✓ Prevents foam build-up that reduces cooling
✓ Leaking areas can be determined quickly and easily under UV light
✓ Compatible with all anti-freezes

Application area
✓ From 10,000 km or every 20,000 km
✓ Do not use more than once a year
✓ When replacing and adding cooling lubricant
✓ After replacing components in the cooling system

Instructions
Add the coolant. Sufficient for 10 litres of coolant.

Dosing
Sufficient for 10 litres of cooling lubricant.

Notice
✓ Observe the coolant level when adding
