

Professional 144 Cooling System Agent

Non-hazardous, synthetic cooling system active substance. Suitable for use in cooling lubricants with or without silicate. Converts rust and lime into water-soluble substances and supplements consumed additives in the coolant. Integrated UV pigment particles allow quick determination of leaking areas in the cooling system.

Properties

- ✓ Ensures the cooling system functions correctly
- ✓ Supplements consumed coolant additives
- ✓ Cleans the entire system continuously while driving
- ✓ Converts corrosion and lime into water-soluble substances
- ✓ Prevents foam build-up that reduces cooling
- ✓ Leaking areas can be determined quickly and easily under UV light
- ✓ Compatible with all anti-freezes

Application area

- ✓ From 10,000 km or every 20,000 km
- ✓ Do not use more than once a year
- ✓ When replacing and adding cooling lubricant
- ✓ After replacing components in the cooling system

Instructions

Add the coolant. Sufficient for 10 litres of coolant.

Dosing

Sufficient for 10 litres of cooling lubricant.

Notice

- ✓ Observe the coolant level when adding
