

## Human Technology<sup>®</sup>

### 902 Synthetic Oil Fluid

Innovative, active synthetic oil with adhesive property for long-term lubrication. Suitable for all moving metallic parts. Also ideal for precision engineering and precision parts — no resin deposits or adhesion.

#### TUNAP Human Technology<sup>®</sup>:

- ✓ All ingredients independently tested by NSF\*
- ✓ Free from allergenic dyes and fragrances
- ✓ Free from solvents
- ✓ Free from neurotoxic n-hexane
- ✓ No indicators of toxicological effects
- ✓ \*NSF International, The Public Health and Safety CompanyTM

#### Properties

- ✓ Very good protection from corrosion and wear
- ✓ Solvent free, resulting in minimal dry-off time
- ✓ Very good creep effect
- ✓ Thermally stable from -40°C to +200°C
- ✓ No resin or adhesive effect
- ✓ Compatible with most sealing materials

#### Application area

- ✓ Wherever grease is unsuitable or unwanted
- ✓ Particularly suitable for precision engineering and precision parts, e.g. in electronics
- ✓ Excellently suited for making rods, joints and locking cylinders movable
- ✓ Use of Human Technology<sup>®</sup> drastically reduces risk to health
- ✓ As a result, especially suitable for use in vehicle interiors

#### Instructions

Refer to the product information before use. Shake can vigorously before use. Pre-clean the surfaces to be treated if necessary. Spray an even coating from a distance of approx. 20 cm and leave the product to dry off briefly. Repeat the treatment if necessary.

#### Notice

- ✓ If the product is to be used in the food processing industry, only the minimum quantity that is technically necessary may be used.
- ✓ If the product is to be used as an anti-corrosive film, it must be completely removed before the relevant device is used again.
