### 606 Trailer-specific Grease

Dirt-repellent and extremely adhesive functional grease. Optimally suited for lubricating swap body lockings, container lockings and maintenance lifting platforms. Very well suited for lubricating moving parts with large fitting tolerances.

#### Properties

- ✓ Ideal for lubricating moving metal parts on commercial vehicles that cannot be lubricated in shorter time intervals and are exposed to very strong external weather influences
- ✓ Very well suited for lubricating swap body lockings and container lockings
- ✓ Extremely dirt repellent
- ✓ Highly resistant to pressure

#### Application area

- ✓ Heavy construction machinery
- ✓ Commercial vehicles
- ✓ Trucks
- ✓ Cranes
- ✓ Mixing machines
- ✓ Agricultural vehicles

#### Instructions

Spray on parts to be greased from a distance of approx. 20 cm.
