

CARGO logic[®]

685 Fuel Guard System Protection

Reliably kills microorganisms in diesel and bio-diesel fuels and prevents regeneration. Effective against a broad range of bacteria, yeasts and moulds.

Properties

- ✓ Reliably fights microorganisms
- ✓ Acts against bacteria, yeasts and moulds
- ✓ Reliably prevents the regeneration of microorganisms

Application area

- ✓ Diesel engines in commercial vehicles
- ✓ Diesel systems in ships
- ✓ Standing aggregates
- ✓ Home tank systems with a long storage time
- ✓ For preventative use with bio-diesel and high moisture levels

Instructions

For systems that are already affected, clean thoroughly and use a shock dosage. Can also be applied as a preventative measure. Avoid overdosing.

Dosing

Shock dosing:

500 ml for 600 litres

5,000 ml for 6,000 litres

Preventative use:

500 ml for 3,000 litres

5,000 ml for 30,000 litres
