

Professional 103 Penetrating Oil

Extremely fast rust removal with the highest creep properties and lubricating effect. MoS₂ particles ensure maximum reliability in preventing repeat blockages. Loosens corroded and oxidised screw and plug connections in seconds.

Properties

- ✓ Loosens oxidised screw and plug connections in seconds
- ✓ Extreme creep effect
- ✓ With MoS₂ particles for the greatest reliability against blockages
- ✓ Extremely high lubricating effect, therefore also highly reliable during dismantling
- ✓ Also effective in the higher temperature range
- ✓ Highly effective even on light alloy and non-ferrous metals

Application area

- ✓ Fast dismantling of screws, bolts, tie rods, etc. that have rusted in place
- ✓ Makes joints movable

Instructions

Spray parts to be loosened until saturated and loosen them.
