

Professional 107 Silicone Grease

Colourless silicone grease against all annoying noises where plastics are in contact with each other and between metal and rubber. Creates a colourless grease film against friction wear and a water-repellent barrier layer with superior resistance to high and low temperatures.

Properties

- ✓ Reduces friction wear with transparent grease film
- ✓ Heavy-duty and water-repellent protective layer
- ✓ Temperature resistant from -30°C to +180°C
- ✓ Especially adhesive on plastic and rubber
- ✓ Odourless

Application area

- ✓ Excellently suited for lubricating sliding roof guides
- ✓ For creaking noises from:
 - ✓ Plastic on plastic
 - ✓ Plastic on rubber
 - ✓ Plastic on metal and ceramics

Instructions

Shake the can well until you can hear the balls inside. Spray surfaces to be treated and allow to dry off briefly.
