

airco well®

994 Hygienic Cleaner AC Systems

airco well® 994 Hygienic Cleaner for effective cleaning of vehicle A/C system evaporators. Combined with high spray pressure, the cleaner removes all impurities, micro-organisms and pathogens that cause bad odours in A/C systems. In accordance with VDI/ZDK Guideline 6032, this should be carried out annually when replacing the pollen filter.

Properties

- ✓ Effective cleaning of the A/C system evaporator by combining a chemical cleaning agent and hydromechanical high-pressure cleaning
- ✓ For removing contaminants, harmful bacteria, pollen, invisible germs and fungi
- ✓ Eliminates the cause of unpleasant odours
- ✓ Verified conformity with all treated A/C system surfaces

Benefits

- ✓ Effective and sustainable solution to prevent bad odours and impurities in vehicle air-conditioning units
- ✓ ECARF-certified: allergy-friendly without disinfectants, fragrances or dyes
- ✓ TÜV Thüringen-certified: proven to increase air flow through the evaporator's fins after cleaning

Application area

- ✓ For cleaning and flushing vehicle A/C system evaporators

Instructions

Fill airco well® 19230 AC Pressure Cup Spray Gun with 1 litre of 994 and connect it on the compressed air side. Flush the evaporator with the entire contents.

Vehicle-specific instructions can be found here:
<https://haendler.aircowell.com/en/instructions/>

Dosing

For cleaning an air-conditioning unit evaporator.

Notice

- ✓ Read SI 994 before use
- ✓ The 19230 A/C Pressure Cup Spray Gun is required to apply the product. This is available in the e-shop
- ✓ A/C system cleaning in accordance with VDI/ZDK Guideline 6032 - only in conjunction with cleaning of the pollen filter box using airco well® 996 or 998
