

microflex® 955 Oil System Protection BN

Innovative motor oil additive with nanostructural alpha-BN. Restores the surface of components in engines, thus compensating for increasing wear. Reduces noise and fuel consumption. Improves the corrosion protection provided by the oil.

Properties

- ✓ Improves the oil's lubricity
- ✓ Reduces noise and fuel consumption
- ✓ Improves the oil's effectiveness at protecting against corrosion and oxidation
- ✓ As dry and emergency lubrication
- ✓ Full effectiveness achieved after approximately 1000 km

Application area

- ✓ Engine oil

Instructions

Shake can well before use. Add the contents to the engine oil at operating temperature. Dose to max. 20 % of the oil filling quantity with no ill effects. Do not exceed the maximum oil level. Full effectiveness achieved after approx. 1,000 km.

Dosing

300 ml is sufficient for 5 litres of oil.
950 ml is sufficient for 15 litres of oil.

Notice

- ✓ Not suitable for manual/automatic gearboxes
