

microflex® 955 Oil System Protection BN

microflex® 955 Oil System Protection BN is an innovative engine oil additive with nanostructural alpha-BN. Restores the surface of components in engines and compensates for wear, reduces noise and fuel consumption, and improves the corrosion protection provided by the oil. Ideal for lasting optimisation of engine performance and service life.

Properties

- ✓ Reduces noise and fuel consumption
- ✓ As dry and emergency lubrication

Benefits

- ✓ Optimises the oil's effectiveness at protecting against corrosion and oxidation
- ✓ Improves the lubricity of the oil

Application area

- ✓ All types of combustion engines (petrol and diesel)
- ✓ Cars and trucks
- ✓ Vehicles and machines subjected to high loads
- ✓ For wear compensation and extending the service life of engines subjected to intensive use
- ✓ For heavy-duty vehicles, e.g. for operation with trailers

Instructions

Shake the can well before use. Add the contents to the engine oil at operating temperature. Dose to max. 20 % of the oil filling quantity with no ill effects. Do not exceed the maximum oil level.

Dosing

300 ml: Sufficient for 5 l of oil
950 ml: Sufficient for 15 l of oil

Notice

- ✓ Full effectiveness achieved after approximately 1,000 km.
