

TUNAP Sports TS200 Chain oil

TUNAP SPORTS Chain Oil with practical brush attachment is extremely easy and efficient to use. It protects against corrosion and prevents damaging friction. The brush also makes the oil high-yield and prevents spray mist. The oil has a very good adhesion effect and therefore provides good long-term lubrication.

TUNAP SPORTS quality promise:

- ✓ State-of-the-art technology for maximum ease of movement in the drivetrain.
- ✓ With practical brush attachment for easy and efficient application.
- ✓ High level of protection against wear and corrosion.

Properties

- ✓ Good adhesion provides a long-lasting lubricating film over long distances.
- ✓ For optimal wear protection with high creep and adhesion effects.
- ✓ Dirt- and water-repellent and therefore very good lubricating properties.
- ✓ E-bike ready.

Application area

- ✓ For lubricating the chain, cassette and rear derailleur after repairing, maintaining or cleaning the bicycle.

Instructions

1. Thoroughly clean the chain using TUNAP SPORTS Drive Cleaner to remove any residual oil and dry with a cloth.
2. Place the brush on the chain, press the spray head and turn the crank backwards until the chain has completely run through and is coated with chain oil.
3. Leave the chain oil to take effect for at least 15 minutes.
4. Finally, wipe the chain with a cloth to remove the excess oil.

Notice

- ✓ Professional tips: For optimal long-term chain maintenance: First, lubricate the chain using TUNAP SPORTS Chain Oil, then seal with Chain Wax.

| Product Description | Contents | Article Number | Packaging Unit |
|---------------------|----------|----------------|----------------|
