Product Information

microflex®

931S particle filter cleaning kit

Cleaning instead of replacing! No new parts required. The starter set for cleaning particle filters (e.g. DPF) when installed. The set contains all you need to be able to offer this service.

Certified by TÜV THÜRINGEN ID 8151.002.16.102 www.tuev-thueringen.de
Effectiveness tested TT Standard
- cleaning effect
- time reduction regeneration
- compatibility on the NOx-Sensors (tested on Continental + Bosch)

Best Available Technology

Properties

- ✔ Cleaning is possible without dismantling the particulate filter
- ✔ Minimises the loading of the diesel particulate filter with ash and soot
- ✔ Neutral, ash and metal-free formulation
- ✔ Diesel particulate filter cleaner:
- ✔ Dissolves carbon deposits in particulate filters
- ✔ Non-flammable and metal-free
- ✔ Dissolves and removes ash deposits in particulate filters
- ✔

Application area

- ✔ In case of a loss of performance or faults due to an overloaded diesel particulate filter
- ✔ For restoring the absorption capacity of the loaded diesel particulate filter
- ✔ As a preventative measure in case of an unfavourable driving profile

Instructions

Refer to Service Information SI 931 before use. Spray the cleaner over the probe opening with the special probe in the direction of the diesel particulate filter. After cleaning, rinse the particulate filter with the flushing concentrate. Perform a test drive lasting at least 20 minutes.
