

TUNAP

1899 T-Shape HDR Probe (incl. Couplings)

155 cm special probe for charge-air cooler cleaning with the 1800 high-pressure cleaner and the CARGOlogic® 641 charge-air cooler cleaner. Includes two couplings (bronze and metal) for connection to the 1800 high-pressure cleaner.

Properties

- ✓ Regulates the spray jet of the high-pressure cleaner
- ✓ No damage to the cooling grooves due to circular geometry at probe end
- ✓ Emission angle of 90°
- ✓ Excellent rinsing effect
- ✓ Optimal spray pattern and cleaner distribution due to special T-shape
- ✓ Practical bayonet mount

Application area

- ✓ For spraying CARGOlogic® 641 charge-air cooler cleaner
- ✓ For water flushing

Instructions

Use with TUNAP 1800 high-pressure cleaner. Observe Service Information SI 641.
