# Product Information

## Professional
## *375* Contact Cleaner

**Network-active cleaner for electrical contacts and sensitive electronic components. Removes grease, oils and contamination on metallic contact surfaces. Evaporates quickly and without leaving any residue.**

### Properties

- ✔ Removes grease, oil and contamination from metal contact surfaces
- ✔ Flushes traces of moisture from difficult-to-reach places
- ✔ Activates the surface for optimum application of 372 electronic grease or 373 electronic oil

### Application area

- ✔ Plug connection in the engine compartment
- ✔ Diagnostic connector
- ✔ Bond earthing connectors
- ✔ Trailer sockets
- ✔ Battery terminals
- ✔ Contacts behind trims
- ✔ Connections in the lower vehicle area such as ABS, ASR, EDL etc.

### Instructions

Spray parts to be treated. In enclosed areas, wait a few seconds for the flammable cleaner to evaporate before activating the contact closure.

### Notice

- ✔ When treating the components it is to be ensured that they are without current.
- ✔ The subsequent protective treatment is 100% effective even with TUNAP contact cleaner 375 that is not yet fully evaporated
