

TUNAP

398 Anti-Weasel Spray

Protects effectively against rodent bites in the engine area. The adhesive effective and sticky consistency keeps animals away from the vehicle, preventing them causing damage to it. The effect lasts for approx. two months.

Properties

- ✓ Protects and preserves rubber parts in the engine area, such as axle boots, steering boots, brake hoses, coolant hoses and electric cables
- ✓ Resistant to splashing water, salt water and high pressure

Application area

- ✓ To protect against marten bites in the engine area

Instructions

Use only when the engine is cold and the electrical system is switched off. Spray evenly over the entire engine area. Allow it to dry off for ten minutes. Repeat application approx. every two months and after an engine wash.
