

TUNAP Sports TS150 Suspension Cleaner

TUNAP SPORTS Suspension Fork Cleaner quickly and easily restores the smooth functioning of the forks while protecting the shock-absorbing and suspension elements. The cleaner has a completely solvent-free formula which also maintains the sealing rings and forms a waterproof lubricating film.

TUNAP SPORTS quality promise:

- ✓ Very good compatibility with all standard sealing materials and no solvents.
- ✓ Improved response of suspension forks and shock absorbers and noticeably less friction.

Properties

- ✓ Removes dust and micro-contaminants on shock absorbers and suspension forks and maintains the sealing rings.
- ✓ Forms a waterproof silicone film to ensure optimum fork function.
- ✓ Does not attack the suspension fork coating.
- ✓ E-bike ready.

Application area

- ✓ For direct cleaning and maintenance of suspension forks and shock absorbers after repairing and servicing the bicycle and after every ride.

Instructions

1. Use a cloth to dry the stand pipes and dip tubes on the shock-absorbing and suspension elements.
2. Aim the spray head towards the dip tube and sealing ring and spray the cleaner on both areas.
3. As a precaution, catch the spray mist with a cloth.
4. Leave to take effect, then bounce the bicycle up and down two to three times. Use a dry cloth to remove any excess oil and dirt.

Notice

- ✓ Do not spray on brake pads or brake discs!
