Instructions

When used in the vehicle interior, we recommend wiping the surfaces to be cleaned with a cloth soaked in 5180. When used on large areas of the vehicle exterior, a suitable applicator can be used. If necessary, test the material compatibility in an inconspicuous area before use. Wear protective equipment throughout the entire cleaning process. The product is effective against enveloped viruses (such as coronaviruses) after an application time of just two minutes. An application time of five minutes is required for effectiveness against bacteria.

Notice

- ✓ Not suitable for application on the skin. Use biocides with caution. Always read the label and product information before use. Only recycle the packaging once completely empty.
