

## Contra Sept® 5180 Surface Disinfectant Cleaner

Surface disinfectant for all washable objects and surfaces. The highly efficient formula disinfects, cleans and protects glass, plastic and metal surfaces.

### Effective against Corona SARS-CoV-2

- ✓ tested by EUROVIR® Hygiene-Labor GmbH

### Properties

- ✓ Proven to be effective against Coronavirus SARS CoV-2
- ✓ Effective against other enveloped viruses (e.g. bovine viral diarrhoea (BVD) and vaccinia virus)
- ✓ Disinfects, cleans, protects
- ✓ Works in just 2 minutes
- ✓ Good material compatibility

### Application area

- ✓ For cleaning and disinfecting large areas

### Instructions

Pour the desired amount of surface disinfectant into a suitable applicator or use a spray attachment. Apply undiluted to the surface, wipe and leave to work for at least 5 minutes. Make sure that the surface is completely wet and keep it wet for the full application time. Maximum application: 50 ml/m<sup>2</sup>. Make sure that all visible dirt is removed before disinfection. If the area is fully aired (for approx. 15 minutes), there is no need to wipe the surface afterwards. The product is effective against enveloped viruses (e.g. coronaviruses) after an application time of just 2 minutes. The application time to ensure effectiveness against bacteria is 5 minutes.

### Notice

- ✓ Not suitable for application on the skin. Use biocides with caution. Always read the label and product information before use. Only recycle the packaging once completely empty.
- ✓ BAuA reg. no: N-88172
