

Human Technology® 916 Universal Cleaner Plus

Special cleaning fluid for use in physiologically and ecologically sensitive areas. Residue-free cleaning for grease-free surfaces and easy follow-up processes. Removes and dissolves oily dirt, grease and silicone.

Properties

- ✓ 100% free of n-Hexane
- ✓ Removes oil, grease, resin, silicone and corrosion protection layers
- ✓ Binds and washes away abrasive dust
- ✓ Dries off quickly
- ✓ High spray pressure for optimised cleaning effect even in difficult-to-reach areas
- ✓ Kosher and Halal certified

Application area

- ✓ Cleaning in physiologically and ecologically sensitive areas
- ✓ For maintenance, repair and assembly work involving stubborn grease residues

Instructions

Evenly spray the surfaces to be cleaned from a distance of approx. 20 cm. If necessary, use a brush, cloth or similar tool to mechanically process the surfaces and allow to dry. Perform a preliminary test to check for plastic and paint compatibility.

Food processing equipment or utensils that have been treated with such products must be washed with an appropriate cleaning solution and rinsed thoroughly with drinking water before being put back into a processing area.

Notice

- ✓ Usage is limited to non-production areas of food processing plants to ensure that any solvent vapours cannot enter production areas.
- ✓ Food processing equipment or utensils that have been treated using this product must be washed with an appropriate cleaning solution and rinsed thoroughly with drinking water before being put back into a processing area.
- ✓ Evaporation rate: 2.96
