

## TUNAP Sports **TS222 Ultimate Chain Wax**

TUNAP SPORTS Ultimate Chain Wax is characterised by its grease-wax matrix, which ensures minimal friction and dirt deposits. State-of-the-art additives and solid lubricants ensure that the lubrication remains effective significantly longer than with other chain waxes. The chain is ready to use immediately due to the easy spray application.

### Properties

- ✓ Extremely low friction coefficients
- ✓ No dirt adhesion
- ✓ Extremely good adhesion
- ✓ Strong corrosion protection
- ✓ Very fast flash-off
- ✓ Very low environmental impact

### Benefits

- ✓ Minimal friction
- ✓ High level of dirt resistance
- ✓ Long-lasting lubrication

### Application area

- ✓ Chain wax for lubricating the chain after repairing, maintaining or cleaning the bicycle.

### Instructions

1. First remove coarse soiling.
2. Shake the Ultimate chain wax vigorously (10 to 15 seconds) and aim the spray head at the chain.
3. Press the spray head and turn the crank backwards once or twice until the chain has completely run through and is supplied with the lubricant.
4. Leave to work for at least 30 seconds.
5. Finally, lightly wipe the chain with a cloth.
6. If necessary, repeat the operation.
