

TUNAP Sports **TS180 Bicycle Cleaner**

Due to its adhesive properties, the TUNAP SPORTS Bicycle Cleaner is highly effective and dissolves even stubborn dirt with ease. It is suitable for all common frame materials and does not damage seals.

TUNAP SPORTS quality promise:

- ✓ Tested material compatibility (internal tests) for all common frame materials and surfaces (including carbon).
- ✓ Does not damage contact points or non-ferrous base metals and prevents electrical conductivity and moisture bridges.
- ✓ Suitable for all frame materials and provides very good coverage due to the adjustable spray head.

Properties

- ✓ Reliably dissolves and removes dirt and mud due to its adhesive properties, which allow the cleaner to stick to the dirt, and offers active corrosion protection.
- ✓ Water-based formula that does not damage surfaces or seals and is biodegradable.
- ✓ Effectively removes sugary drink residues and food residues.
- ✓ E-bike ready.

Application area

- ✓ For cleaning dirty bicycle parts, for use before any repairs or maintenance and after every ride.

Instructions

1. Rinse off coarse dirt with water.
2. Spray the frame and all parts (incl. motor and battery housing for e-bikes) with TUNAP SPORTS Bicycle Cleaner and leave to take effect for 4 to 6 minutes.
3. Brush the whole bicycle and use the Bicycle Brush to remove stubborn dirt.
4. Thoroughly rinse the whole bicycle with water.
