

Human+Technology® 905 Silicone Oil+

High-quality silicone oil for the care and preservation of plastic and sealing materials. It combines a powerful water-repellent effect and excellent water displacement with very good compatibility with conventional materials.

Human+Technology®

- ✓ High level of industrial safety and user protection since it is free from neurotoxic n-hexane, potentially allergenic fragrances and dyes, and harmful solvents
- ✓ No indicators of toxicological effects
- ✓ NSF H1 registered
- ✓ ISO 21469, Kosher and Halal certified
- ✓ Formula free from PFAS and microplastics
- ✓ Better for people and the environment due to the use of fewer potentially harmful ingredients

Properties

- ✓ High-quality, transparent, physiologically harmless lubricating and release agent
- ✓ Very good compatibility, as well as excellent care and preservation of plastic and sealing surfaces
- ✓ Good material compatibility with all conventional materials
- ✓ Colourless, non-discolouring, non-contaminating and non-greasy
- ✓ Wide temperature range from -50 °C to +250 °C

Application area

- ✓ For protecting, treating or lubricating all plastics and seals in vehicles and machines
- ✓ Also for use as a mould release agent, especially in the plastics processing industry

Instructions

Refer to the product information before use. Pre-clean the surface to be treated and spray evenly from a distance of approx. 20 cm.

Notice

- ✓ When using the product in the food processing industry, only the minimum quantity technically required should be used.
- ✓ When using the product as a corrosion protection film, it must be completely removed before the appliance is restarted.

Nonfood Compounds
H1

Product Description	Contents	Article Number	Packaging Unit
Silicone Oil+	400 ml	1108485	12 PCS

Technical Product Data	Silicone Oil+
Colour spectrum	Colourless Clear
Oil basis	Silicone oil
Kinematic oil basis viscosity	350 mm ² /s
Pour point	-50 °C
Thickener	Inorganic
Min./max. temperature conditions	-50 bis 200 °C
NSF Number	131381
