Apply TUNPRO BIO to the parts to be treated by spraying, brushing, dripping or dipping. Leave briefly to take effect; repeat if necessary. Apply a thin layer to the surface for protection and care.

Product Description	Contents	Weight of content	Gross weight	Article Number	Packaging Unit
TUNPRO BIO	200 l	162 kg	180 kg	11ACH20266L2000	1 PCS

The information provided here is based on our general technical experience and knowledge related to printing. All specifications are guidelines based on product design, the specified use and mechanical and systems engineering. But the information does not represent any pledge about features or any assurance about the product's suitability for use in a particular case. The user is not released from the responsibility of testing the product.
Depending on the mechanical, dynamic, chemical and thermal stresses to which they are subjected, lubricants alter their technical values on a pressure- and time-dependent basis. The changes can have an impact on the function in the application.
TUNAP products are continuously refined. We reserve the right to change all technical data in this document at any time and without any prior notification. Obligations of any kind are in no way implied.
