

TUNFLUID G 100 P

Mineral oil-based lubricating oil with very low residue formation

Properties

- ✓ Outstandingly low residue formation for loaded lubricating contacts
- ✓ Good oxidation resistance
- ✓ Reduces friction and wear
- ✓ Compatible with most standard elastomers and seals
- ✓ Ash-free

Application area

- ✓ For lubricating pistons of IS glass machines
- ✓ For general lubrication of machines

Instructions

TUNFLUID G 100 P must be used at the viscosity specified by the machine manufacturer. Allows for an extended service life when used in conjunction with a TUNAP oil analysis. TUNFLUID oils can be mixed with all conventional mineral oil-based lubricating oils. However, maximum performance can only be guaranteed if the product is not diluted.
