

## TUNJET S 2056 Cleaner Product Coupling for 115

Replacement for the factory-fitted TUNJET product coupling for filling with cleaner and compressed air.

### Properties

- ✓ Product and compressed air charged in one operation
- ✓ Chemically stable for approved liquids
- ✓ New design with improved sealing system
- ✓ Easy to replace

### Application area

- ✓ For eco-friendly and cost-effective filling of refillable spray cans

### Instructions

Observe the assembly instruction. Place TUNJET can on filling plate and press down. Can fills with product and compressed air in approx. 5–8 seconds.
