

TUNAP

13413 Pressure Controller with Manometer

Pressure controller with manometer for controlling input pressure. Accessory for the TUNAP Valve Clean system for cleaning valves and their surrounding ducts (and other pneumatic tools).

Properties

- ✓ Infinitely variable
- ✓ Pressure adjustable from 0 bar to 12 bar
- ✓ Suitable for all pneumatic tools (with compatible connection system)

Application area

- ✓ Compressed air lines/compressed air connections

Instructions

Insert into the compressed air line before the corresponding pneumatic tool. Set the desired pressure.
