5849 Microfibre Cloth Pollen Filter Box

Cleaning cloth for use with Contra Sept 981, the test-winner for the hygienic cleaning of the pollen filter environment. The cloth ensures optimal cleaning results.

Properties

- ✓ Format: approx. 40 x 40 cm
- ✓ Grammage: approx. 280 g/m²
- ✓ Surface: closed short terry loop
- ✓ Style: woven, shape-retaining
- ✓ Material: PES/PA
- ✓ Washable: 40-90°C

Application area

- ✓ With every replacement of the pollen filter, once a year. For best cleaning results, use a 981 disinfectant cleaner, pollen filter housing. During every air conditioning service to prevent, eliminate and clean against bacteria, mould and viruses in the ventilation system of the air conditioning system (A/C) and the adjacent air ducts. Suitable for all vehicles. Eliminates unpleasant odours in the vehicle.

Instructions

For best cleaning results, first take the dirty pollen filter out of the filter box. Spray the ContraSept cleaning cloth with ContraSept 981 and carefully wipe out the filter box. Simply spray the remaining liquid with the probe into the adjacent ventilation duct between pollen filter and evaporator.

Notice

- ✓ Including instructions for use.
