

TUNAP 3901 Tool Holder

Helps seal damage from stone impact reliably and without great pressure on the damage.

Properties

- ✓ Allows for exact and rapid work
- ✓ Precise and easy adjustment of the filling resin cylinder
- ✓ Easy to pivot back into the initial position

Application area

- ✓ For stone impact damage to the windscreen
- ✓ Can also be used in case of severe curve of the windscreen

Instructions

Attach the device near the area damaged by stone impact on the windscreen. The sealing lip of the plastic cylinder screwed into the swivel arm should seal around the impact of the damaged area reliably and without too much pressure.
