

TUNAP

3020 Power Sprayable Seam Sealing

The elastic, sprayable seam sealant allows a factory-original look for every type of car. Can be painted over up to 120 hours. Very good adhesion to all vehicle surfaces. Excellent UV resistance.

Properties

- ✓ Factory-original look for every type of car
- ✓ Can immediately be painted over wet on wet
- ✓ Strong adhesion to all surfaces
- ✓ Good UV resistance
- ✓ Reactive drying
- ✓ Permanently elastic
- ✓ Free from isocyanate and solvents
- ✓

Application area

- ✓ All factory-fitted, sprayed seams (structures) can be re-matched with this system and thus be restored to the original condition after a repair.

Instructions

The sealing compound is applied with the TUNAP compressed air gun K5 1400 and can be sprayed both precisely and over wide areas. If required, the seam sealant can also be applied as a normal sealing bead.

Notice

- ✓ Can be painted over up to 120 hours
