

## TUNSEAL 2035 2-in-1 Primer

The 1-step primer is an adhesion agent and activator in one. Ideally suited for all TUNAP window adhesives for quick adhesion of windows into the bodywork.

### Properties

- ✓ Universal bonding agent (primer) between glass/ceramic and paint and the window adhesive
- ✓ Long-life primer (no reactivation required for three months)
- ✓ Excellent UV protection for the window adhesive
- ✓ Protects small scratches in the paintwork against rust
- ✓ Activator for adhesive trimming (remaining bead) and PU/PVC pre-coated windows
- ✓ Can be used with all TUNAP window adhesives

### Application area

- ✓ For pre-treatment of the adhesion surface of pre-coated windows (RIM) and painted surfaces

### Instructions

Shake bottle well (min. 30 seconds). Apply 1-step primer thinly and evenly on clean adhesive surface with the applicator (approx. 0.05 mm wet film thickness). Allow at least 10 mins. to dry off.

### Notice

- ✓ Use within a day of opening
- ✓ From 24 August 2023, adequate training must be completed prior to industrial or commercial use.
