

19050 Pollen Filter Box Cleaning Tool

The airco well® special tool for cleaning the pollen filter box with airco well® 998 in accordance with VDI/ZDK guideline 6032.

Properties

- ✓ Versatile and reusable cleaning tool for the pollen filter box.
- ✓ Suitable for any shape and size of pollen filter boxes.

Application area

- ✓ Hygienic cleaning of the pollen filter housing in accordance with VDI/ZDK guideline 6032.

Instructions

Attach the cloth: Pull the cleaning cloth evenly over the airco well® tool. Pull the holes at the bottom end of the cloth over the hooks on the pollen filter box tool to prevent the cloth from slipping.

Shake the airco well® cleaner: Shake the 998 Hygienic Cleaner well before use (15-20 seconds).

Application of the cleaner: Hold the pollen filter box tool with the cloth hanging vertically downwards and insert the 998 can. Use your thumb to push the cartridge fully into place to release the cleaning foam. The specially developed cleaning foam starts to work immediately.

Clean the area around the pollen filter: Quickly insert the 19050 pollen filter box cleaning tool with the 998-soaked cleaning cloth into the pollen filter environment and wipe it out evenly.

Dispose of the cloth: Dispose of the cloth after each use.

For cleaning in accordance with VDI/ZDK guideline 6032, chemical-mechanical cleaning of the evaporator with airco well® 994 is necessary.

Notice

- ✓ Use to clean the pollen filter box in combination with airco well® 998 Hygienic Cleaner.
- ✓ Air-conditioning unit cleaning in accordance with VDI/ZDK guideline 6032 - only in conjunction with cleaning the pollen filter box with airco well® 998 and cleaning the evaporator with airco well® 994.
