

TS723 Detailing Brush

The TUNAP SPORTS Detailing Brush makes it easy to clean hard-to-reach areas on bikes. Its flexible brush head moves effortlessly between the fork, wheels, rear frame and hubs, where a lot of dirt collects. The ergonomic handle enables precise handling. Ideal for all wheel types - for thorough cleaning after every journey.

Efficient cleaning - easily reaches hard-to-reach gaps.

- ✓ Flexible brush head - flexible design to reliably remove dirt.
- ✓ Ergonomic handle - secure grip for comfortable use.
- ✓ Suitable for all surfaces - gentle cleaning without scratches.
- ✓ Ideal for confined areas - perfect for forks, hubs and rear frames.

Properties

- ✓ Reaches gaps between the fork and wheel
- ✓ Gaps in the rear frame and hubs

Application area

- ✓ Ideal for cleaning gaps on forks, hubs and rear frames. Reliably removes dirt from hard-to-reach areas. Perfect for regular care after every journey and before repairs or maintenance. Suitable for all bicycle types - from mountain bikes to e-bikes.

Instructions

1. Rinse coarse dirt with plenty of water.
2. Spray on TUNAP SPORTS Bicycle Cleaner and leave it to take effect for 4-6 minutes.
3. Use the detailing brush to remove the loosened dirt from confined areas such as the fork, rear frame and hubs.
4. Rinse the bicycle thoroughly with water to remove the cleaner and any dirt residues.

Dosing

For use before repairs and maintenance, and after every journey.
